ANNOUNCEMENTS.

For Congress.

The Chronicle is authorized to announce HON. T. G. BILBO of Poplarville as a candidate for Congress from the Sixth District, subject to the action of the Democratic party.

NATION-WIDE PLAN TO UTILIZE WASTE LANDS.

To provide homes for the returning soldiers from "over there," Secretary Lane recently presented to the President an "Industrial Villages" plan for the utilization of the 365,000,000 acres of arid, swamp and cut-over lands of the United States. Touching on this subject the Rocky Mountain News says:

"This is a nation-wide plan for land conservation for the use of the demobilized American armies when they have completed their jobs on another continent. The preliminary work should be undertaken without delay. It is a big undertaking naturally, having to do with the provision for millions of able-bodied men. There is no frontier line outside of Alaska. Practically all of the most available public lands have been appropriated. New empires must be constructed of land in waste and land must be irrigated; swamp land drained, cut-over land cleared of stumps and watered where this is required. There is nothing Utopian about this plan. The government would be increasing the resources and the population and the accumulated wealth of the whole nation and strengthening its foundation by adding millions of self-supporting farmers to lands now all but desolate. What is aimed at is to help the newcomer to these lands to help himself; for him to make a permanent home, one that by industry and thrift would in a few years leave him independent."

NO MORE JOY RIDING ON SUNDAYS.

Mr. F. J. Johnson, fuel administrator for Jackson county, has received the following communication from the State fuel administrator, which is self-explanatory:

Minter City, Miss., August 29, 1918.
To County Fuel Administrators:
The Fuel Administration has issued a warning regarding "Joy Riding" in automobiles and other indiscriminate use of gasoline on Sundays. They request that this practice be discontinued immediately in order to give this gasoline to our army for use in Europe. The supply is exceedingly short at this time and unless the people comply with this request immediately, a very drastic order will be forth coming within the next ten days.

Please give the most publicity possible so that we may do our share in saving gasoline for war purposes.
Yours truly,
C. L. TOWNES,
Fuel Admr. for Miss.

RED CROSS.

Work on the chapter house of the Pascagoula Red Cross is progressing very satisfactorily, and when completed will furnish an attractive and greatly needed improvement for the Chapter, as this building is to be used exclusively by the Red Cross Chapter for its work and meeting places. It will consist of one large room, 25x25 feet, for the general work room, and two smaller rooms, one for the storage room and the other for meeting of executives, etc. The site for this chapter house was donated to the Chapter by the Jackson county board of supervisors, the lumber for building by the International Shipbuilding Company, and carpenters from the Dierks-Budgett Shipbuilding Company constructed the house. Mr. E. B. Martin donated the shingles and Mr. F. H. Lewis the brick and cement.

At its regular meeting Friday afternoon, the Chapter will consider the possibility of having a "Mercy Drive," for the benefit of our soldiers overseas.

The Pascagoula labor unions demonstrated their splendid spirit of patriotism on Monday, Labor Day, when all the net proceeds of their picnic were donated with characteristic generosity to the Red Cross Chapter. This co-operation of the unions with the Red Cross Chapter is the source of much gratification and appreciation on the part of the chapter, furnishing as it always does, assistance when most needed.
